EDUCATION

Master of Computer Application, 2024 – Present
Jagan Institute of Management Studies affiliated to GGSIPU New Delhi, India
CGPA - 7/10

Bachelor Of Computer Application, 2020 – 2023
Institute of Innovation in Technology & Management affiliated to GGSIPU New, Delhi, India
CGPA - 7.59/10

TECHNICAL SKILLS

- **Languages:** C++, JavaScript, Python
- **Frameworks & Libraries:** React, Node.js, Express.js, FastAPI
- **Databases:** PostgreSQL (Neon), MongoDB, VectorDB
- **Frontend Technologies:** HTML, CSS, Tailwind CSS
- **LLM & AI Tools:** LangChain, Gemini API, Github Copilot
- **Tools & Platforms:** Git, GitHub, Docker, Postman, VS Code, Vercel, Render

Projects

Quick.ai, AI-Powered SaaS Platform

Technologies: PostgreSQL (Neon), Express.js, React, Node.js, Clerk, Stripe, Gemini API

- Architected a scalable full-stack SaaS platform with **secure user authentication**, profile management (Clerk), and premium subscription billing (Stripe + Clerk).
- Employed **serverless PostgreSQL** (Neon) for reliable, scalable data storage.
- Deployed a suite of AI-powered tools that boost user productivity and creativity through advanced integrations.
- Live demo: <https://quick-ai-client.vercel.app/> 🖱

PDF-AI, AI Document Intelligence

Technologies: React, FastAPI, LangChain, Gemini API, HTML/CSS/JS, Framer Motion, Vercel, Render

- Developed a full-stack AI-powered web app that summarizes PDF documents and enables users to ask context-aware questions.
- Integrated a **RAG (Retrieval-Augmented Generation) model** using LangChain and the Gemini API to provide accurate, contextually grounded responses based on the uploaded PDF content
- Designed a responsive and interactive frontend with React and Framer Motion for smooth animations
- Live demo: <https://pdf-summarizer-ii1w.vercel.app/> 🖱

Smart Trips, AI Trip Planner

Technologies: React, TailwindCSS, Axios, Firebase, Google Gemini & Places APIs, Google Auth

- Created a smart itinerary generator: users input destination, budget, duration, and traveler types → app spits out day-wise, AI-generated travel plans.
- Integrated **Google Gemini** to craft natural-language itineraries with timed suggestions.
- Pulled hotel info, images, ratings, and geo-data using **Google Places API**.
- Enabled trip history tracking via Firestore, and built a responsive UI with TailwindCSS and Axios.
